

FOR HIM

Can you imagine how happy were those who love you to see you taking your first steps or saying your first words! You felt so special and important! Although feeling special and important is a great feeling, God gave you your abilities and talents so that you will mirror his power and love. All of our actions should reflect the greatness of God within us. We should not seek our glory.

- Take some time to thank God for all the good deeds you do, such as loving and helping others, caring for the environment and cheering others with your talents.
- On a butterfly template, write down some good deeds you do daily which show the glory and the power of God within you.
- Through its beauty, the butterfly reminds us of how great God is. Just like the butterfly pray God to help you show everyone how great He is.
