

# US CITIZENS

Can you imagine what a wonderful place the world would be if every human being had to love God, others and all of creation in the same way God loves us? When we chose to love God first and foremost we will then become good citizens who will do their duties and work for the good of all. In this way everyone will be able to live the basic human rights and needs.

- **Take some time to think of ways how you can love God in all that you say or do and be a good citizen.**
- **On the map template provided write a prayer for your country and for all the citizens to work for the common good.**
