

Directions:

- Using black cardstock or construction paper, create the base of the stoplight
- Use a circular item such as a mug to trace the circles with the red, yellow and green construction paper
- Glue them onto the black construction paper

- Write the words

Stop and study God's Word

Slow down, listen and obey His commands

Go and tell others the Good News

- Punch a hole at the top of your stop light and add any kind of ribbon, string or yarn to it.
- You can hang this stoplight by your bed to remind you that being a disciple is a command for everyone and we should learn to stop (study God's word), slow down (listen and obey His commands) and go (tell others the Good News).
