

## How to make the people chain

- Using tape, stick the A4 papers together
- Cut out the person figure on a piece of cardboard
- Fold the A4 papers, concertina-style (like a fan) the width of the figure
- Draw the outline of the figure on the front fold. Make sure that the arms reach each edge of the folded paper (or else at the end, you will not have a chain)
- Cut around most of the figure, and through all the layers of paper. Do not cut around the hands (which are on the edge of the folds, or else the figure will not be linked to the others)
- Unfold the paper to reveal a people paper chain.
